Subject: West Fertilizer investigative protocol

To All:

Just a reminder that tomorrow is our agreed upon deadline for comments on the investigative protocol. I have received a few comments and will incorporate much of those and will explain what was not incorporated.

Additionally, I am still not sure I have a complete list of parties on this email so please share with others. I know that there are two that will not be getting this so please forward to them if you know them.

Defenbaugh & Associates and Phelps Dunbar emails returned no recipient(I used their firms generic email address). No response will be understood as an agreement without objections to moving forward with the protocol.

There is another protocol circulating regarding the debris which is an addendum to this protocol which is completely separate from this protocol.

if there are other parties or comments please let me know.

Respectfully Submitted,

Nestor Camara B. Sc. IAAI C.F.I.
